

## Geographical coverage of the Cathedral Archives

Exeter Cathedral Library and Archives contains documentary sources covering a much wider range of places than most people expect.

Naturally, the greatest bulk of the Archives relates to the Cathedral itself, but also to various estates and benefices formally belonging to the Dean & Chapter. The largest parts of these interests fall within the Diocese of Exeter – the city of Exeter and the counties of Devon and Cornwall - but also peculiar jurisdictions in Oxfordshire. For many of the places outside these areas, the coverage may be limited to just a small number of references, but it is worth making enquiries.

The following list is a basic list of places covered by the Cathedral Archives. It is not intended to be a complete list:
